E-safety Policy

Statement of Intent

At Pontyclun Primary School children and adults are working together to recognise and act upon the rights of the child and become a Rights Respecting School. They will learn about the rights of the child by studying the United Nations Conventions on the right of the child (UNCRC). This is a comprehensive human rights treaty that enshrines specific children's rights in international law. It consists of 42 articles.

When children are taught to understand their own rights, we believe that they will then appreciate and respect the rights of others.

All staff and pupils have agreed to uphold the following principles as part of our developing school ethos.

Pupils have

- a right to learn,
- a right to be heard,
- a right to a childhood,
- a right to be treated fairly,
- a right to be healthy.

These rights will be reflected in all school policies and the articles they refer to will be stated clearly throughout.

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

Roles and Responsibilities

The following section outlines the e-Safety roles and responsibilities of individuals and groups within the school :

Governors:

Governors are responsible for the approval of the e-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the *Governing body / Governor's sub-committee* receiving regular information about e-Safety incidents and monitoring reports. A member of the Governing Body should take on the role of e-Safety Governor¹ to include:

- *regular meetings with the e-Safety Co-ordinator / Officer*
- *regular monitoring of e-Safety incident logs*
- *reporting to relevant Governors / sub-committee / meeting*

Headteacher / Principal and Senior Leaders:

- The Headteacher has a duty of care for ensuring the safety (including e-Safety) of members of the school community, though the day to day responsibility for e-Safety may be delegated to the e-Safety Co-ordinator
- The Headteacher and another member of the Senior Leadership Team / Senior Management Team should be aware of the procedures to be followed in the event of a serious e-Safety allegation being made against a member of staff.
- The Headteacher / Senior Leaders are responsible for ensuring that the e-Safety Coordinator / Officer and other relevant staff receive suitable training to enable them to carry out their e-Safety roles and to train other colleagues, as relevant.
- The Headteacher / Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal e-Safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.
- The Senior Leadership Team / Senior Management Team will receive termly monitoring reports from the e-Safety Co-ordinator / Officer.

e-Safety Coordinator (Sophie Hancock)

The e-Safety Coordinator

- Leads the e-Safety committee
- Takes day to day responsibility for e-Safety issues and has a leading role in establishing and reviewing the school e-Safety policies / documents
- Ensures that all staff are aware of the procedures that need to be followed in the event of an e-Safety incident taking place.
- Provides (or identifies sources of) training and advice for staff
- Liaises with the Local Authority / relevant body

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

- Liaises with (school) technical staff
- Receives reports of e-Safety incidents and creates a log of incidents to inform future e-Safety developments.
- Meets regularly with e-Safety Governor to discuss current issues, review incident logs and if possible, filtering / change control logs
- Attends relevant meeting of Governors
- Reports regularly to Senior Leadership Team

Network Manager / Technical staff:

The *Technical Staff* (or managed service provider) is responsible for ensuring:

- That the school's technical infrastructure is secure and is not open to misuse or malicious attack
- That the school meets (as a minimum) the required e-Safety technical requirements as identified by the Local *Authority* and also the e-Safety Policy that may apply.
- That users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- That the filtering policy is applied and updated on a regular basis and its implementation is not the sole responsibility of any single person.
- That they keep up to date with e-Safety technical information in order to effectively carry out their e-Safety role and to inform and update others as relevant
- That the use of the network / internet / Virtual Learning Environment / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Headteacher; e-Safety Coordinator for investigation.
- That monitoring software / systems are implemented and updated as agreed in school policies

Teaching and Support Staff

Are responsible for ensuring that:

- They have an up to date awareness of e-Safety matters and of the current school e-Safety policy and practices
They have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP / AUA)
- They report any suspected misuse or problem to the e-Safety Coordinator for investigation / action
- All digital communications with students / pupils / parents / carers should be on a professional level and only carried out using official school systems
- e-Safety issues are embedded in all aspects of the curriculum and other activities
- Students / pupils understand and follow the e-Safety and acceptable use *agreements / policies*
- Students / pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- They monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities and implement current policies with regard to these devices
- In lessons where internet use is pre-planned students / pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Article 28

*You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.*

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

Safeguarding Designated Person

The Safeguarding Designated Person should be trained in e-Safety issues and be aware of the potential for serious safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

e-Safety Group- Digital Ambassadors

This group provides and opportunity for pupil voice – pupils are given the responsibility of ensuring equipment is ready for use; supporting other pupils in IT development.

Students / pupils:

- are responsible for using the school digital technology systems in accordance with the Student / Pupil Acceptable Use Agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good e-Safety practice when using digital technologies out of school and realise that the school's e-Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through *parents' evenings, newsletters, letters, website / VLE and information about national / local e-Safety campaigns / literature*. Parents and carers will be encouraged to support the school in promoting good e-Safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website / VLE and on-line student / pupil records

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

Policy Statements

Education – young people

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education pupils in e-Safety is therefore an essential part of the school's e-Safety provision. Children and young people need the help and support of the school to recognise and avoid e-Safety risks and build their resilience.

E-Safety should be a focus in all areas of the curriculum and staff should reinforce e-Safety messages across the curriculum. The e-Safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned e-Safety curriculum should be provided as part of ICT / Computing / PSE / Digital Literacy lessons or other lessons and should be regularly revisited
- Key e-Safety messages should be reinforced as part of a planned programme of assemblies and activities
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Students / pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be helped to understand the need for the student / pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school
- Staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – parents / carers

Many parents and carers have only a limited understanding of e-Safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, web site, VLE
- Parents / Carers evenings / sessions

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

- High profile events / campaigns eg Safer Internet Day
- Reference to the relevant web sites / publications eg <https://hwb.wales.gov.uk/>
www.saferinternet.org.uk/ <http://www.childnet.com/parents-and-carers>

Education & Training – Staff / Volunteers

It is essential that all staff receive e-Safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal e-Safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the e-Safety training needs of all staff will be carried out regularly. It is expected that some staff will identify e-Safety as a training need within the performance management process.
- All new staff should receive e-Safety training as part of their induction programme, ensuring that they fully understand the school e-Safety policy and Acceptable Use Agreements.
- The e-Safety Coordinator will receive regular updates through attendance at external training events (eg from Consortium / SWGfL / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This e-Safety policy and its updates will be presented to and discussed by staff in staff / meetings / INSET days.
- The e-Safety Coordinator / will provide advice / guidance / training to individuals as required.

Training – Governors

Governors should take part in e-Safety training / awareness sessions, with particular importance for those who are members of any subcommittee / group involved in technology / e-Safety / health and safety / safeguarding . This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation (eg SWGfL).
- Participation in school training / information sessions for staff or parents (this may include attendance at assemblies / lessons).

Technical – infrastructure / equipment, filtering and monitoring

If the school has a managed ICT service provided by an outside contractor, it is the responsibility of the school to ensure that the managed service provider carries out all the e-Safety measures that would otherwise be the responsibility of the school, as suggested below. It is also important that the managed service provider is fully aware of the school e-Safety Policy / Acceptable Use Agreements.

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-Safety responsibilities

School technical systems will be managed in ways that ensure that the school meets recommended technical requirements

•

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users will be provided with a year group username and secure password by the *ICT co-ordinator who will keep an up to date record of users and their usernames.*
- The “master / administrator” passwords for the school ICT system, used by the Network Manager must also be available to the Headteacher and kept in a secure place.
- The Headteacher is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Internet access is filtered for all users. Illegal content is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes
- The school has provided enhanced / differentiated user-level filtering
- Where possible, school technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- An appropriate system is in place – the e-safety log book, for users to report any actual / potential technical incident / security breach to the relevant person, as agreed).
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate students / pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet eg on social networking sites.
- In accordance with guidance from the Information Commissioner’s Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect

Article 28

*You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.*

Dring yn uchel, dring yn uwch
Climb high, climb higher

- everyone's privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other *students / pupils* in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that students / pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students / pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Students' / Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of students / pupils are published on the school website (may be covered as part of the AUA signed by parents or carers at the start of the year - see Parents / Carers Acceptable Use Agreement in the appendix)
- Student's / Pupil's work can only be published with the permission of the student / pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".
- It has a Data Protection Policy
- It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)
- Responsible persons are appointed / identified - Senior Information Risk Officer (SIRO) and Information Asset Owners (IAOs)
- Risk assessments are carried out

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents
- There are clear Data Protection clauses in all contracts where personal data may be passed to third parties
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data storage meets the requirements laid down by the Information Commissioner's Office.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device, in line with school policy once it has been transferred or its use is complete

Communications

This is an area of rapidly developing technologies and uses. Schools will need to discuss and agree how they intend to implement and use these technologies eg few schools allow students / pupils to use mobile phones in lessons, while others identify educational potential and allow their use. This section may also be influenced by the age of the students / pupils. The table has been left blank for school to choose its own responses.

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

Dring yn uchel, dring yn uwch
Climb high, climb higher

	Staff & other adults			Students / Pupils				
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Communication Technologies								
Mobile phones may be brought to school	x				x			
Use of mobile phones in lessons		x						x
Use of mobile phones in social time	x							
Taking photos on mobile phones / cameras								x
Use of other mobile devices eg tablets, gaming devices	x				x			
Use of personal email addresses in school, or on school network			←	x				x
Use of school email for personal emails			←	x				x
Use of messaging apps		x						x
Use of social media			←	x				x
Use of blogs			←	x				x

The school may also wish to add some of the following policy statements about the use of communications technologies, in place of, or in addition to the above table:

When using communication technologies the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. *Staff and students / pupils should therefore use only the school email service to communicate with others when in school, or on school systems (eg by remote access).*
- Users must immediately report to the nominated person – in accordance with the school policy – the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and students / pupils or parents / carers (email, chat, VLE etc) must be professional in tone and content. *These communications may only*

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.

- Students / pupils should be taught about e-Safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

With an increase in use of all types of social media for professional and personal purposes a policy that sets out clear guidance for staff to manage risk and behaviour online is essential. Core messages should include the protection of pupils, the school and the individual when publishing any material online. Expectations for teachers' professional conduct are set out by the General Teaching Council Wales (GTCW) but all adults working with children and young people must understand that the nature and responsibilities of their work place them in a position of trust and that their conduct should reflect this.

All schools and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place. All staff working at any educational establishment are expected to demonstrate a professional approach and respect for pupils and their families and for colleagues and the learning setting.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through limiting access to personal information:

- Training to include: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to students / pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information.

Article 28

*You have the right to a good quality education.
You should be encouraged to go to school to
the highest level you can.*

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

The school's use of social media for professional purposes will be checked regularly by the senior risk officer to ensure compliance with the Social Media, Data Protection, Communications, Digital Image and Video Policies.

Unsuitable / inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

- The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in school or outside school when using school equipment or systems. The school policy restricts usage as follows:

User Actions

		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	pornography				X	
	promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business					X	
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school					X	
Infringing copyright					X	
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)					X	

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

Creating or propagating computer viruses or other harmful files				X	
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X	
On-line gaming (educational)		X			
On-line gaming (non educational)				X	
On-line gambling					X
On-line shopping / commerce				X	
File sharing		X			
Use of social media				x	
Use of messaging apps				x	
Use of video broadcasting eg Youtube				x	

The school should agree its own responses and place the ticks in the relevant columns, in the table above. They may also wish to add additional text to the column(s) on the left to clarify issues. The last section of the table has been left blank for schools to decide their own responses)

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see "User Actions" above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Article 28

Climb high, climb higher*

Article 28

You have the right to a good quality education.
You should be encouraged to go to school to the highest level you can.

*Dring yn uchel, dring yn uwch
Climb high, climb higher*

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority or national / local organisation (as relevant).
 - Police involvement and/or action
- If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School Actions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:
